

ARUN PRASATH B

Junior Software Developer

Madurai | 6383732704 | arunprasathb045@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Motivated Junior Software Developer with expertise in **JavaScript, React.js, Node.js, Express.js, and MongoDB/MySQL**. Experienced in building **scalable, responsive, and user-friendly applications** through hands-on projects and professional training. Skilled in **REST API development, database management, and frontend/backend integration**. Strong foundation in **problem-solving, teamwork, and adaptability, with proven ability to deliver efficient solutions in fast-paced environments**. Seeking an opportunity to contribute technical expertise and grow as a **Junior Software Developer** in a dynamic organization.

Technical Skills

- Frontend : **HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Material-UI**
 - Backend : **Node.js, Express.js**
 - Databases: **MongoDB, MySQL**
 - Tools&Technologies: **Git, GitHub, Postman, VS Code, REST APIs, JWT Authentication**
 - **Concepts: Responsive Design, CRUD Operations, State Management, API Integration**
 - Soft Skills: **Communication, Adaptability, Problem-Solving, Teamwork**
-

Professional Experience

Junior Software Developer

UFours IT Solution Private Limited | Mar 2026 - June 2026

- Gaining hands-on experience in junior software development using the (MySQL, Express.js, React.js, Node.js).
- Assisting in the design and development of web applications with clean, maintainable code.
- Collaborating with the development team to implement REST APIs and integrate frontend/backend components.
- Participating in code reviews and learning best practices for software development and deployment.
- Contributing to real-world projects, improving understanding of scalable application architecture.

Talent Acquisition

Emayyam Infotech | Oct 2022 - Nov 2023

- Collaborated with US IT staffing companies and consultants, gaining exposure to IT roles, technologies, and project requirements.
 - Created and managed job descriptions, role requirements, and documentation, improving accuracy in candidate selection.
 - Maintained and utilized databases and online platforms (LinkedIn, Dice, Monster) for data research and reporting.
 - Strengthened communication, teamwork, and problem-solving skills through regular client and consultant interactions.
 - Coordinated interviews, assessments, and selection processes, demonstrating strong organizational and process management abilities.
-

Certifications & Training

- **Full-Stack Development Course** – Edex Tech IT Solutions, Madurai
(Dec 2023 - Aug 2024)

Projects

WeLearn Institution (React · Node.js · Express · MongoDB)

- **Architected and delivered an end-to-end** learning marketplace from the ground up, covering user-facing storefront, checkout flow, and an admin dashboard for full course lifecycle management (create, publish, update, and remove courses).
- Implemented secure **JWT-based user authentication with role-based access control**, differentiating between learners and administrators to enforce data privacy and feature gating.
- Designed and built a suite of **RESTful APIs with Express.js**, incorporating **input validation, error handling middleware**, and structured responses to ensure reliable, **scalable data communication between client and server**.
- Engineered a **fully responsive UI with React**, applying adaptive layouts and component-level design to deliver a consistent, accessible experience across **mobile, tablet, and desktop viewports**.
- Streamlined the learner journey — from account registration and course discovery to purchase and enrollment — reducing friction at every step of the acquisition funnel.
- **Integrated MongoDB** for flexible, **document-based data modeling** to efficiently handle users, course catalogs, enrollments, and transaction records.

Restaurant Management System (React · Node.js · Express · MySQL)

- Developed a **full-stack Restaurant Management System** designed to streamline restaurant operations from order placement to final billing.
- The system features **real-time table management**, allowing staff to track occupied and available tables instantly.
- Implemented a **Kitchen Order Ticket (KOT) workflow** where orders are sent directly to the kitchen and staff can monitor preparation status in real-time (**Pending → In-Progress → Ready → Served**).
- Built dynamic menu management with **category filtering, search functionality, and GST-inclusive pricing**.
- Designed an **automated billing** system that generates invoices with subtotal, GST breakdown, and grand total, supporting both **print-and-close and mark-as-paid workflows**.
- Developed **RESTful APIs using Node.js and Express.js with Microsoft SQL Server as the database**, utilizing stored procedures for all database operations.
- **The frontend was built using React.js with real-time polling** to sync kitchen and order status across all active sessions.

Fit Factory - Online Fitness & Health Platform

- Created a **fitness education website** for training programs and product sales.
- Used **HTML, CSS, Bootstrap, and JavaScript** to design a **mobile-friendly, responsive UI**.
- Optimized cross-device compatibility, ensuring 100% accessibility on mobile and desktop.
- Improved user engagement by developing a **visually appealing and easy-to-navigate interface**.

Education

- **Karpagam Academy of Higher Education**
Master of Business Administration (MBA)
Jun 2020 - Apr 2022
- **S.Vellaichamy Nadar College**
Bachelor of Commerce in Computer Applications
Jun 2017 - Apr 2020
